

Updated October 14, 2016 at 3:06 PM: PennDOT has completed the engineering design for the new Route 926 (Street Road) bridge over the Brandywine Creek in Birmingham and Pocopson townships. PennDOT is advertising the project plans for pre-qualified contractors to review and construction bids are expected to be opened on November 10, 2016. PennDOT plans to begin construction in early 2017. This transportation improvement project will result in the closure of Route 926 (Street Road) for approximately six months. Preliminary work by PECO Energy to relocate utility poles within the project area is expected to start in November.
